Consent Agenda

The Chief Procurement Officer offers the following items for the JEA Awards Consent Agenda. Any item may be moved from the Consent Agenda to the Regular Agenda by a committee member asking that the item be considered separately. **All items on the Consent agenda have been approved by OGC, Budget and the Business Unit Vice President and Chief**. The posting of this agenda serves as an official notice of JEA's intended decision for all recommended actions for **Formal Purchases** as defined by **Section 3-101 of the JEA Procurement Code**. Please refer to JEA's Procurement Code, if you wish to protest any of these items.

3	**Change Order**	**025-20 Construction Services for the District II - 10800 Key Haven Blvd. Pump Station Project Improvements**	**Melendez**	**Petticoat-Schmitt Civil Contractors Inc**	**Capital**	**$362,000.00**	**$1,357,824.00**	**$1,750,685.00**	07/15/2021 - $15,621.00 08/10/2023 - $15,240.00	Start: 06/04/2020 End: 07/30/2024	N
	Last Awarded: 06/04/2020 For additional information contact: Marline McDonald The scope of work includes replacing the pump station (PS) located at 10800 Key Haven Blvd. with a new submersible pump station. This change order request is to complete the force main revisions required to complete the Key Haven PS to Robena Rd BPS project so that both stations can operate in service as designed. This was originally planned as part of the Key Haven project but was left out of the original as the construction drawings for the force main revisions were not complete when the pump stations drawings were. JEA negotiated a lump sum price for this work which was compared to the internal JEA estimate and deemed reasonable by JEA project staff.										
4	**Single Source**	**Blacks Ford WRF Package Plant**	**Vu**	**Evoqua Water Technologies LLC**	**Capital**	**$1,925,000.00**	**N/A**	**$1,925,000.00**	N/A	Start: 01/25/2024 End: 01/31/2025	N
	For additional information contact: David King The purpose of this Award is to deliver and install equipment/materials to modify the existing 0.6 mgd 5-Stage Biological Nutrient Removal (BNR) activated sludge field erected wastewater treatment plant and place the plant back into service as a 0.95 mgd 3-Stage BNR activated sludge process at Blacks Ford Water Reclamation Facility (WRF). Blacks Ford WRF is almost at the 6 mgd permitted capacity. The expansion of Blacks Ford is in design, but action must be taken in the meantime to prevent exceeding its permitted capacity. A package plant was used for additional flow during the last expansion. Evoqua/DAVCO is the original provider of this package plant. This award request is for $1,925,000.00 to Evoqua Water Technologies LLC/DAVCO to rehab the existing package plant and provide an additional 0.95 mgd of capacity. The cost proposal for rehabiliting the DAVCO package plant into pretreatment was the most cost effective compared to other alternatives evaluated including the following: returning the package plant to its original operation with less treatment capacity, modify the package plant to achieve the 0.6 MGD of treatment capacity, constructing a 4th clarifier, using the DAVCO package plant for pretreatment, and utilizing the package plant for flow equalization.										
5	**State Contract/ Piggy Back**	**On-Premise Cisco UCS Hardware: Hybrid Cloud Backup Consolidation**	**Datz**	**Netsync**	**O&M**	**$1,244,958.96**	**N/A**	**$1,244,958.96**	N/A	One Time Purchase	N
	State of Florida Contract 43220000-NASPO-19-ACS- AR3227 Piggyback For additional information contact: Angel Iosua This award piggybacks off of the State of Florida contract with Cisco Systems, Inc. which was competitively bid in 2019 and expires 09/2024. JEA's current backup systems include AvePoint, AvePoint Cloud(M365), Catalyst Object Backup, OCI(Only Oracle EBS currently) and Commvault with multiple, onsite HPE StoreOnce Appliances as the primary data repository with the exception of the cloud based services. The varied backup solutions are transitioning to one solution, i.e. Cohesity Platform and is aligned with the Technology Services Roadmap.. JEA had awarded and purchased the cloud and required software components for the Hybrid Cloud Architecture in July 2023 with an award to CDW/HPE as part of the initial project phases. The build out of the new hybrid-cloud infrastructure and consolidation of all existing backup platforms into a single solution is well underway with the cloud system deployment and SAAS components all 100% deployed in AWS and Azure(M365 - SAAS). As noted during the initial procurement last July, the project team separated out all on-premise hardware into a different procurement to ensure the best hardware solution in terms of cost, functionality and supportability was chosen. JEA selected to build Cisco UCS infrastructure as the on-premise solution based on functionality, supportability, account support and available NASPO contract pricing. This request is for a one-time purchase of On-premise Cisco UCS hardware in the amount of $1,244,958.96 based on State of Florida contract 43220000-NASPO-19-ACS-A3227 pricing. 	Advertised: 12/01/2023 Optional Pre-bid: 12/06/2023 Ten (10) Vendors Participated Responses Opened 12/19/2023 Five (5) Responses Opened For additional information contact: Eddie Bayouth This IFB is for the purchase of Plastic Polymer Manholes and Boxes for inventory stock. The plastic polymer manholes and boxes are used primarily by the electric group. JEA evaluated the bids on price alone, and to ensure uniformity of products, and a common manufacturer and distributor, the analysis was based on the total bid for all Plastic Polymer Manholes and Boxes. This requirement allows JEA the flexibility to order truckloads of mixed items from the same supplier instead of truckload quantity of a single item had multiple suppliers been awarded. JEA saw an increase of 13.2% in the overall cost of the seven (7) items in this solicitation. The first and second bids were within 2.6% of each other, validating that prices are in line with market conditions. This increase is in line with the increases we have seen across the electrical commodity, and as such, JEA deems this purchase justifiable.										
7	**Invitation For Bid (IFB)**	**1411527646 Concrete Poles for Inventory Stock**	**McElroy**	**Dura-Stress**	**Inventory Blanket Account**	**$4,116,635.91**	**N/A**	**$4,116,635.91**	N/A	Three (3) Years, w/ Two (2) - 1 Yr. Renewals Start: 01/25/2024 End: 01/24/2027	N
	Advertised: 12/01/2023 Responses Opened 12/19/2023 Two (2) Responses Opened For additional information contact: Eddie Bayouth This IFB is for the purchase of Concrete Utility Poles for inventory stock. The concrete poles are used by the electric group. Although JEA received two (2) responses at bid opening; Valmont withdrew their bid when they realized they did not meet the minimum qualifications which required them to bid on all of the items. Valmont did not bid on the 65', 70' and 75' poles because they no longer manufacture these lengths to our specifications. JEA evaluated the bids on price alone, and to ensure uniformity of product, and a common manufacturer and distributor, the analysis was based on the total bid for all Concrete Utility Pole items. This requirement allows JEA the flexibility to order truckloads of mixed items from the same supplier instead of truckload quantity of a single item had multiple suppliers been awarded. JEA saw an increase of 22.3% in the overall cost of the seventeen (17) items in this solicitation. When comparing the Dura-Stress bid to the bid that was later withdrawn from Valmont, the bids for the thirteen items Valmont provided pricing are within 3.9% of each other, validating the prices based on current market conditions and as such, JEA deems the purchase justifiable.

Renewals Start: 12/05/2023 End: 12/4/2024	N
	For additional information contact: Eddie Bayouth The purpose of this contract amendment is to correct the original award amount presented to the Awards' Committee on 11/30/2023. Because of an error in the analysis spreadsheet, eleven (11) items that Stuart C. Irby won were not assigned to them. Once corrected, MSC Industrial Supply' total number of items was reduced from 172 to 166 and its total amount was reduced by $20,941.18, and Wesco's total number of items was reduced by five (5) and its total amount was reduced $5,471.64. Irby's amount for the eleven (11) items is $21,784.32 and the total amount for the award is reduced by $4,628.50.

	State of Florida Contract 43220000-NASPO-19-ACS-AR3229 Piggyback For additional information contact: Angel Iosua This award piggybacks off the State of Florida contract with Palo Alto Networks, Inc., which was competitively bid in 2019 and expires 09/2024. Palo Alto Networks is the JEA standard for next-generation firewalls which provide a first line of information security defense for critical infrastructure systems. Part of the Network Rehabilitation and Upgrade project for FY24 is to support multiple, pre-requisites required to maintain compliance, network visibility and network security. This request is for a one-time purchase of hardware and software required for the JEA team to implement a new pair of redundant Palo Alto Firewalls for the configuration of additional network security precautions at the location in the amount of $349,664.00 based on the contract, Florida – Palo Alto NASPO | AR3229 pricing. 	Advertised: 11/20/2023 Opened: 12/19/2023 Six (6) Bids Received For additional information contact: Lynn Rix The purpose of this Invitation for Bid (IFB) is to select a vendor that can rent to JEA wastewater bypass pumps of various sizes and accessories such as cam locks and hoses for use during scheduled and/or emergency maintenance and repair work. At bid opening, JEA received six (6) Bids. United Rental (North America), Inc. is the lowest responsive and responsible Bidder. This bid is 4.43% lower than the current contract. A copy of the Bid Form and Workbook are attached for reference.

	Advertised: 08/18/2023 Opened: 09/26/2023 Four (4) Responses Received BAFO Received: 11/21/2023 Three (3) BAFO Responses Received For additional information contact: Dan Kruck The scope of work for this contract is to systematically complete compliance testing of backflow preventers at residential irrigation customer sites and residential reclaimed customer sites. All backflow prevention tests shall be within JEA's service territory. JEA is awarding two contracts due to the estimated volume of work. The pricing per backflow test did not reduce during the BAFO round. The pricing is consistent with current pricing for this work and deemed reasonable.										
4	**Single Source**	**FY24 Crane Truck Purchase**	**McElroy**	**Garber Ford**	**Capital**	**$345,287.10**	**NA**	**$345,287.10**	NA	Start Date: 01/18/2024 Projected End Date: 06/30/2024	N
	For Additional Information Contact: Eddie Bayouth This Single Source request is for the purchase of two (2) Class 123 F550s 4X4 with 7500 lb crane trucks for Water Expansion. JEA Fleet currently has a need for fifteen (15) crane trucks, nine (9) for expansion and six (6) for replacement. Reading Truck has two (2) trucks and cranes that meet the JEA specifications. Reading Trucks is an upfitter and cannot sell directly to customers and is utilizing Garber Ford to facilitate this purchase. The truck quote from Garber is based off of FSA pricing but it is not a FSA "quote" since they are not an awardee of the FSA contract. The price per truck is $172,643.55. We recently bid these type of trucks and the lowest bid price was $176,319.20 for the 4X2 version and these vehicles are not expected to arrive until Q2, FY25. The Reading Trucks should arrive by the end of June of 2024. Because of the immediate availability and lower price than the previously bid Class 123 F550s 4X2 with 7500 lb crane truck, JEA deems this Single Source purchase justifiable.										
5	**Piggyback**	**Oakridge WTP GST 1 Rehab Repair Project**	**Vu**	**CROM LLC dba CROM Coatings and Restorations**	**Capital**	**$960,798.35**	**N/A**	**$960,798.35**	N/A	Start: 01/18/2024 End: 05/31/2024	N
	For additional information contact: David King The project scope is to make repairs to the Oakridge Water Treatment Plant (WTP) Ground Storage Tank #1 to include dome, baffle wall, and other items identified on the inspection report. The latest tank inspection report for tank 1 at the Oakridge WTP indicated that the interior tank dome and the concrete masonry unit (CMU) baffle walls were both in poor/guarded condition. The report recommended that additional core testing be conducted to ascertain the extent of the dome degradation and confirm a suitable method of repair or placement. Destructive inspection indicated that repairs are required to the dome and baffle walls of the tank. This project will facilitate the repairs to the dome, baffle wall and other items identified on the inspection report. CROM Coatings and Restorations is the original manufacturer and installer of the tank. JEA will piggyback and use pricing from an existing contract with the City of West Palm Beach. This contract was competitively awarded.

Owner Correspondence
Bid Proposal

Mr. Jim Hatch
Project Manager
JEA
225 N. Pearl Street
Jacksonville, Florida 32202

Dear Mr. Hatch:

We propose to complete the following scope of work at the referenced project for the lump sum value of **$ 362,000**.

Inclusions:
1. 650 feet of sewerage disposal from existing FM along Dunn Ave.
2. 1,250 feet of sewerage disposal from existing FM along JEA power easement.
3. 5,000 feet of sewerage disposal from existing FM beyond JEA power easement.
4. Basic maintenance of traffic (MOT).

Exclusions:
1. Permits.
2. Power pole supporting or holding or relocating.

Clarifications:
1. Line Stop(s): Note 3 on drawing C-500 indicates that if valve 000329 does not isolate, then install a line stop. This is unknown. No other line stops are needed.
2. Plate S-29B: This detail is listed on both connections to the new directional drill. However, we interpret that only the saddle and nipple and ball valve are required, and not the entire air release valve assembly and vault.

Schedule:
1. Five (5) week duration.
2. Long lead time item(s): TEAM Valve(s) and Tapping Sleeve (4-5 weeks)

Sincerely,

AB

Aaron Browning

Quotation No.: 557053-A2

To: Bidding Contractors
Owner: JEA
To: Katie Templeton
Job Name: JEA Blacks Ford WRF Interim Modifications – Bid Section 11660

1. SUMMARY

Evoqua Water Technologies, LLC proposes to deliver and install equipment/materials to modify the existing 0.6 mgd 5-Stage Biological Nutrient Removal (BNR) activated sludge field erected wastewater treatment plant and place the plant back into service as a 1.0 mgd 3-Stage BNR activated sludge process at the JEA Blacks Ford WWTP Facility. Work to be done is applicable to the scope of supply described in this quotation and subject to the Clarifications/Exceptions and Standard Terms of Sale and Erection stated herein. Existing Davco Job # is 2033-000554.

Addenda received: NONE

The information in this quotation is confidential and/or proprietary and has been prepared solely for the recipient's use in considering the purchase of the equipment and/or services described herein. Transmission of all or any part of this information to others, or use by the recipient, for other purposes is expressly prohibited without Evoqua's prior written consent.

Item & Description	Price
Material/Equipment	$1,005,000 USD
Demo/Install & Field Painting	$920,000 USD
Adder: Price per Mixer	$25,000 USD
Adder: Price per Recycle Pump	$23,000 USD

Taxes Not Included

Evoqua's price includes only the specific items detailed in this quotation. Items not specifically identified herein are to be furnished by others. Please refer to the excluded items in Section 11 of this quotation for a list of items to be furnished by others.

A. OPTIONS: An order for items quoted as an extra cost option, if any, will be accepted only when included with the basic equipment order.

B. FREIGHT: Pricing is FCA shipping point with standard freight allowed to the job site. Our price does not include any costs for unloading, transporting on the site, phased shipments or storage.

C. QUOTATION VALIDITY: This quotation is valid for a period of thirty (30) days unless extended in writing by Evoqua. Due to current raw material price fluctuation, Evoqua reserves the right to re-quote the equipment proposed herein after that time.

Due to volatility in material costs, prices quoted in this proposal will be adjusted to reflect changes in the Metal and Metal Products Index (MMPI) published by the U.S. Department of Labor, Bureau of Labor Statistics. The most recent published MMPI is 314.42 for June, 2023. If the MMPI exceeds 320.70 at the time the Equipment is released for manufacture, then the price will be increased by the same percentage as the MMPI exceeds 320.70.

Further Evoqua's price does not account for increased costs, delays and inefficiencies associated with current regulations and guidelines concerning COVID-19. Should these, or any additional, restrictions be implemented by any governing body, the CDC, or the customer or user of the Equipment to address COVID-19, Evoqua reserves the right to request a change order to the extent its costs or time for performance are increased by additional restrictions.

D. FIELD SERVICES: Evoqua's pricing includes the services of a factory field service technician for checking the installed equipment and instruction of Owner's personnel as detailed below in proposal.

Category	Trips	Days on Site
Mechanical	2	3
Total	**2**	**6**

E. SERVICE MANUALS: Our pricing includes an electronic version of the operation and maintenance (O&M) manual for Controls, Screen, and instrumentation as specified below as an Adobe PDF file format only. If requested, Evoqua will supply hard copies of the service manual at the customers expense. Drawings will be supplied in an unchangeable TIF, bitmap, or PDF file format only. The rights to the content of Evoqua O&M manuals and drawings belong solely to Evoqua and Evoqua reserves the right to make changes to content at any time.

F. PAYMENT AND PRICE TERMS: The terms of payment are net 30 in accordance with the following milestones:

- 10% on order
- 10% on drawing submittal delivery
- 55% on shipment of equipment, or offer to ship
- 20% upon completion of installation and paint
- 5% on startup of equipment or 120 days from final delivery, whichever occurs first

Cancellation Policy: If Evoqua is issued an order and the Buyer cancels or suspends its order for any reason other than Evoqua's breach, the Buyer shall promptly pay Evoqua for work

performed prior to cancellation or suspension and any other costs incurred by Evoqua as a result of such cancellation or suspension. At a minimum, cancellation after executed contract will result in a cancellation fee of 10% of the total order value.

Evoqua's prices are exclusive of any taxes. If this project is not subject to sales or use tax, please issue a Tax-Exempt Certificate with any ensuing purchase order (P.O.). If applicable, please provide a copy of payment bond information with the P.O. With no exemption or if this project is subject to sales or use tax, the Purchaser will be invoiced for taxes at the then-current rate of sales, use or other tax for the jobsite location.

2. DRAWING AND SHIPPING INFORMATION

Evoqua will furnish shop drawing submittals and equipment per the following project schedule:

- Submittal Drawings (*See note below*): Within 6 to 8 weeks from the date of final agreement by both parties.
- Submittal Drawing Reviews/Approvals: Within 4 weeks from Evoqua's delivery of Submittal Drawings.
- Shipment of Equipment: Within 22-24 weeks after approval of Submittal Drawings.
- Installation (Phase 1): Within 3-4 weeks after shipment of materials and before painting begins.
- Blast and Paint: 6-7 weeks after Phase 1 installation is completed
- Installation (Phase 2): Within 4-5 weeks after painting for final install work.

Note: Furnish Submittal drawings/O&M for new field instruments and controls, control logic and integration with the plant level SCADA system, and the new static influent screen and support structure. Provided drawings will show tank modifications. Shop drawings for existing equipment that will be reutilized will not be required

Evoqua has provided typical estimated times and shipment dates. Actual times will be provided upon receipt of a Purchase Order based upon current backlog. Evoqua will work closely with the General Contractor and/or Engineer to provide delivery dates to meet the overall project schedule as possible.

If Submittal Drawing Reviews/Approvals are not received by Evoqua in accordance with the project schedule noted above, Evoqua shall be entitled to a reasonable extension of the *Shipment of Equipment* times and/or a reasonable increase in the contract price to cover costs incurred because of Submittal Drawing Review/Approval delays unless the delay is the fault of Evoqua.

3. INFLUENT CHARACTERISTICS AND TREATMENT REQUIREMENTS

<u>Influent Characteristics</u>

The process shall be capable of treating a constant 1,000,000 gallons per day of raw domestic sewage, having the following on average:

- BOD – 262 mg/l
- TSS – 218 mg/l

- TKN – 63 mg/l

Treatment Requirements

- The process shall produce a minimum effluent quality of 20 mg/l of BOD, TSS, and total nitrogen. In addition, effluent ammonia shall be less than 2 mg/l. These requirements will be required when operated in accordance with the manufacturer's instructions.

- The process performance shall meet the performance requirements once the facility is modified to create a 3-stage Biological Nutrient Removal System (BNR) consisting of an anaerobic zone, first anoxic zone, and aerobic zone to meet the required process requirements. The inner circular tank currently serves as a secondary clarifier and the annular space between the inner circular wall and outer circular wall shall be modified into the required process compartments. Inner and outer diameters are shown on the plans, and water depths and tank volumes shall remain the same.

4. EQUIPMENT SCOPE – SYSTEM MODIFICATIONS AND REHABILITATION WORK

The process tank and equipment modifications and rehabilitation work will include the following:

A) Furnish and install new static screen assembly. Work will include support platform, access walkway from existing bridge assembly to new platform, piping from screen to plant, concrete slab for support platform with sump to collect drainage from dumpster, sump pump and piping to pump drainage water back into plant. Submittals shall be included for this work. The required dumpster will be provided by JEA. Evoqua will be responsible for supplying and installing piping internal the plant and will also include the influent piping from the screen to the plant and the aeration piping at the blowers. The Contractor will be responsible for providing and construction of the remainder of the pipe.

B) Furnish and install additional fine bubble diffuser assemblies in existing post anoxic zone to meet the additional aeration requirements. The diffuser assemblies shall match diffusers assemblies in existing aeration zone.

C) Replace membranes on existing fine bubble diffusers. The existing diffuser assemblies will have to be removed for painting the interior of the plant and re-installed after painting is complete.

D) Replace winch on supernate in sludge holding tank.

E) Replace hoses and clamps on all airlifts which includes supernate, scum, RAS, and WAS.

F) Replace flex hose and clamps on scum trough discharge pipe.

G) Replace PVC belting, backing strip and hardware on skimmer arm.

H) Repair aluminum handrails in 2 places, and as necessary for access to new influent screen.

I) Remove 7 existing mixers for customer to send to the service center and have checked out. Re-install mixers in anerobic zones after repairs are complete. Other mixers will be spares.

J) Provide and install two new mixers for the pre-anoxic zone.

K) Remove 2 internal recycle pumps for customer to send to the service center and have checked out. Re-install pumps after repairs are complete.

L) Relocate existing Internal Recycle pumps to the end of expanded aeration zone #2 that is replacing post anoxic zone.

M) Provide and install a new 10-inch diameter magnetic flow meter and handrail mounted indicating transmitter for the internal recycle line.

N) Install one existing blower furnished by customer. Include concrete slab for blower. Include piping from additional blower to tie into existing blower piping. Existing blower piping to be increased in size as shown on the drawings.

O) Demo all internals in existing Travelling Bridge Filter. The support Contractor shall be responsible for removal and disposal of filtration media.

P) Install two 8-inch diameter nozzles and one 6-inch diameter nozzle on TBF as shown on the drawings for pump connections.

Q) Plug holes between filter bed and the effluent channel and verify watertightness.

NOTE: There may be other items in need of repair that are not known at this time. Evoqua will give customer a quote for any additional repairs before work is to be done.

5. FIELD INSTRUMENTS

- Furnish and install a Hach Dissolved Oxygen sensor and transmitter (Model LDO 2 sc).
- Furnish and install a Hach Nitrate sensor and transmitter (Model Nitratax Plus sc).
- Furnish and install an Ammonia analyzer and transmitter (Model Amtax sc).

6. ELECTRICAL CONTROLS

Replace instrumentation and controls as required in the existing control panels as follows:

<u>Plant PLC Control Panel:</u>

- Rebuild existing enclosure to provide Automated controls for the WRF plant.

Main Components to include the following:

- Shaefer backplate to Match replace existing backplate
- Siemens BQ 120VAC Main Breaker
- Citel DS41S 120VAC Surge Protector

- Siemens 5SJ Control Circuit Breakers
- Siemens 1516-3 PN/DP PLC and required I/O
- Citel DLA Analog Surge Arrestors
- Siemens TP1200 Comfort Color Touchscreen
- Siemens Ethernet Switch with Copper/Fiber Optic Connectors
- APC UPS
- Siemens 3TX7 Relays
- Square D Pilot Devices
- 24VDC Power Supply
- Citel DLA 4-20mA Analog Input Surge Protector
- Phoenix Contact Terminal Blocks
- Alarm Light
- Alarm Horn

Treatment Plant Control Panel:

- Rebuild existing enclosure to include retrofit of Full Voltage Non-Reversing (FVNR) Starters for the mixers, clarifier drive and Variable Speed Drives (VFD) for the Recycle Pumps. New control system components shall utilize the Profinet communication standard.

Main Components to include the following:

- Shaefer backplate to match and replace existing backplate
- Siemens 3VA5 480VAC Main Breaker
- Siemens 3VA 480VAC VFD Breakers
- Diversified SLA-440 Phase Monitor
- Citel DS43S 480VAC Surge Protector
- (2) Cutler Hammer SVX VFD's (Recycle Pumps)
- (7) Siemens 3RV20 Motor Starter Protectors (FVNR Motors)
- (7) Siemens 3RT20 IEC Contactors (FVNR Motors)
- Fuse Holders and Fuses
- Siemens MT Control Transformer
- Citel DS41S 120VAC Surge Protector
- Siemens 5SJ Control Circuit Breakers
- Siemens IM155 Profinet I/O
- Siemens Unmanaged Scalance Ethernet Switch
- Wilo Seal Leak/Temperature Switch Relays (Mixers and Pumps)
- Siemens 3TX7 Relays
- Square D Pilot Devices
- 24VDC Power Supply
- Citel DS210 24VDC Surge Protector
- Phoenix Contact Terminal Blocks

Quotation No.: 557053-A2

Main Blower Control Panel:

- Rebuild existing enclosure to include retrofit of Variable Speed Drives (VFD) for the existing Blowers. New control system components shall utilize the Profinet communication standards.

Main Components to include the following:

- Shaefer backplate to match and replace existing backplate
- Siemens 3VA5 480VAC Main Breaker
- Siemens 3VA 480VAC VFD Breakers
- 3VA5 480VAC Feeder Breaker to Auxiliary Blower Panel
- Diversified SLA-440 Phase Monitor
- Citel DS43S 480VAC Surge Protector
- (2) Cutler Hammer SVX VFD's (Main Blowers)
- Fuse Holders and Fuses
- Siemens MT Control Transformer
- Citel DS41S 120VAC Surge Protector
- Siemens 5SJ Control Circuit Breakers
- Siemens IM155 Profinet I/O
- Siemens Unmanaged Scalance Ethernet Switch
- Siemens 3TX7 Relays
- Square D Pilot Devices
- 24VDC Power Supply
- Citel DS210 24VDC Surge Protector
- Phoenix Contact Terminal Blocks

Additional Blower Control Panel (sub-feed from Main Blower Panel):

- New enclosure to include Variable Speed Drive (VFD) for the 50 HP blower.

Main Components to include the following:

- Shaefer backplate to match and replace existing backplate
- Siemens 3VA5 480VAC Main Breaker
- Siemens 3VA 480VAC VFD Breakers
- 3VA5 480VAC Feeder Breaker to Auxiliary Blower Panel
- Diversified SLA-440 Phase Monitor
- Citel DS43S 480VAC Surge Protector
- (1) Cutler Hammer SVX VFD's (Auxiliary Blower)
- Fuse Holders and Fuses
- Siemens MT Control Transformer
- Citel DS41S 120VAC Surge Protector

- Siemens 5SJ Control Circuit Breakers
- Siemens 3TX7 Relays
- Square D Pilot Devices
- 24VDC Power Supply
- Citel DS210 24VDC Surge Protector
- Phoenix Contact Terminal Blocks

PROCESS CONTROLS

- The manufacturer shall utilize the Packaged wastewater treatment system control panel for integration of all components mentioned in this specification. The manufacturer shall provide all necessary PLC programming to monitor and control the Packaged Wastewater Treatment System.

- Profinet protocol shall be used as the primary communication to JEA's network.

- The manufacturer shall provide all documentation relating to the Packaged wastewater treatment system, including but not limited to I/O lists, control schematics, wiring diagrams, panel drawings, and an instrumentation index.

- Evoqua will provide HMI screen information to integrator.

7. SPARE PARTS

The following spare parts shall be supplied by the manufacturer of the treatment system as spare parts for the operation of the system:

1. One set of spare "V" belts per each type of blower supplied

2. One spare control relay for each type supplied

3. One spare indicator light bulb for each type supplied

4. Twenty air diffuser membranes boxed for storage

8. INSTALLATION SCOPE

Evoqua proposes to furnish labor, equipment and expendable materials to install the equipment listed above.

Customer is responsible for having tanks drained and clean before Evoqua arrives on site to preform installation of Evoqua equipment being provided.

Evoqua is responsible for offloading the equipment supplied by Evoqua.

All materials and equipment being removed by Evoqua during demolition and installation to be disposed of on-site including spent blasting media.

Evoqua is responsible for installing supplied accessories and/or equipment by normal fabrication and welding procedures.

Evoqua is responsible for providing the necessary construction equipment for erection (crane, welding machines, cutting equipment, etc.).

Customer or General Contractor is responsible for any permits required for concrete work or any other work.

No field electrical conduit and wiring work is the responsibility of Evoqua.

Evoqua not responsible for check out and repair of existing Drive or blower assemblies.

Evoqua not responsible for removal and disposal of Filter media.

Work hours by Evoqua Water Technologies LLC at the site shall be as determined by Evoqua Water Technologies LLC. The purchaser shall not define working hours, number of work days per week or prohibit Evoqua Water Technologies LLC from working evenings, weekends, holidays, etc., when deemed to be advisable by Evoqua Water Technologies LLC General Terms and Conditions for Erection Work document is included as part of this proposal.

Variations from Evoqua's standard Terms and Conditions of Sale and the Clarifications/Exceptions identified above can be negotiated on an individual, as needed basis prior to award of contract. However, please note that this proposal is expressly conditioned upon: (i) acceptance by the Owner or Contractor of the Terms and Conditions of Sale and the Clarifications/Exceptions as described within this proposal, without modification or addition, or a mutually agreed upon set of commercial and technical terms; and (ii) Evoqua's satisfactory completion of an anti-corruption due diligence review of the purchaser.

9. FIELD PAINTING SCOPE

A) All vessel interior and exterior surfaces of the field-erected plant and the renovated filter (effluent wetwell) to be sweep blasted.

B) All interior and exterior surfaces of the field-erected plant and the renovated filter (effluent wetwell) shall be coated as follows:

Interior:

- SSPC-SP7 brush blast leaving all tightly adhered coatings
- SSPC-SP10 near white blast bare areas only
- Spot prime bare areas with Sherwin Williams Duraplate 235 @ 4 – 6 mils DFT
- Finish coat all internals with Sherwin Williams Duraplate 235 @ 4 - 6 mils DFT

Exterior:

- SSPC-SP7 brush blast leaving all tightly adhered coatings
- SSPC-SP10 near white blast bare areas only
- Spot prime bare areas with Sherwin Williams Duraplate 235 @ 4-6 mils DFT
- Finish coat with Sherwin Williams Acrolon Ultra @ 2-3 mils DFT

NOTES:

FIELD PAINTING CANNOT BE PERFORMED IN INCLEMENT WEATHER OR WHEN TEMPERATURES ARE BELOW 45º F. EWT WILL NOT BE RESPONSIBLE FOR DELAYS IN THE PROJECT DUE TO THE WEATHER CONDITIONS.

PROVISIONS TO PROTECT THE SURROUNDINGS FROM OVERSPRAY DAMAGE THAT MAY OCCUR FROM THE PAINTING PROCESS ARE NOT ANTICIPATED AS BEING REQUIRED; AND HAVE NOT BEEN INCLUDED AS A PART OF THIS PROPOSAL.

10. START-UP/TRAINING SERVICES

- A clean water test of the aeration system will be required to verify performance of the blowers and diffused aeration system. The test may occur once power is available to the blowers and performance of the blowers is verified.

- Three (3) bound sets of complete operating and maintenance instructions of new equipment supplied shall be furnished to the Engineer for delivery to the Owner.

- Functional Testing: Complete tests necessary to demonstrate that installed equipment and systems function as specified and operate in the manner intended. Functional testing is a prerequisite to performance testing. The treatment unit manufacturer shall furnish a representative to perform functional testing.

- After start-up, the Manufacturer shall furnish the service of a competent technical service representative after Contractor's start-up to instruct the Owner's personnel in the operation and maintenance of the equipment for a three-day period during one trip.

11. EXCLUDED ITEMS

The price from Evoqua includes only those items listed in this Quotation. The items listed below are excluded:

- Draining and cleaning plant and filter
- Disposal of existing items removed from plant and filter
- Repairs on existing mixers and IR pumps
- Additional mobilization to re-install mixers if not returned while on-site
- 50 HP Blower (supplied by others)
- Repairs on existing blowers if needed
- Testing of blowers

- Repairs on existing clarifier drive if needed
- Hole Watch considerations
- Disposal of spent blasting media
- Submittals other than items listed above
- Wage rates
- Field disconnects, conduit and wiring
- Lighting on plant
- Influent pump station
- Effluent pump station
- Any work on sludge pump assemblies
- Influent piping to new screen
- Dumpster for screen is by others
- Any other equipment or items not expressly mentioned in this proposal
- Installation of embeds and hooks
- Any work outside the tank walls
- Influent pump station
- EQ Pumps
- Stairway to pump station structure
- Wash down piping assembly
- Mechanical sludge dewatering with chemical feed
- Field run electrical disconnect switches
- All interconnecting yard piping
- Main power line to all panels
- Taxes of any kind
- Plant Lighting and lighting support brackets
- All field electrical conduit
- Site work with concrete slabs (including slab design) and clarifier grout
- Raw sewage influent pump station with force main to WWTP's
- WWTP final effluent outfall line
- Grit removal equipment
- Disinfection Equipment
- MCC unit with motor starts, VFD's etc. for drum screens, blowers, pumps, mixers
- Standby power generator with automatic transfer switch
- State permitting
- Performance and payment Bond
- Concrete, grout, mastic, sealing compounds, shims
- Detail shop fabrication drawings
- Supervisory services; laboratory, shop, or field testing
- Underwriters Laboratory inspection of electrical controls

12. CLARIFICATIONS/EXCEPTIONS

The equipment specified herein shall conform to the specification sections referenced in Section 1 of Evoqua's Quotation to the extent they are technically applicable to Evoqua's scope of supply as described in this Quotation and subject to the following clarifications:

Article, Section	Clarifications/Proposed Modifications
11660 – 3.03 E & F	Performance Testing and Acceptance Testing to be done by Others.
11660 – 2.01 I	Mixers to be re-installed must be returned from "check out" while EWT crew is on site or additional mobilization may be needed.
	Spare V-belts to be supplied only for the original Evoqua-supplied two Blowers
	Spare alternators not required. Alternators are in PLC logic.

Evoqua's standard terms and conditions, including without limitation Evoqua's warranty obligations in Article 7 govern the purchase and sale of equipment, products, and related services, referred to in Evoqua's proposal. Evoqua's offer or acceptance is expressly conditioned on Buyer's assent to these terms. Evoqua rejects all additional or different terms in any of Buyer's forms or documents.

The Influent and Effluent criteria listed in the Bid Documents was used as the basis of design for equipment selection. Evoqua makes no express or implied performance warranty by offering equipment under this specification, unless specifically included in Evoqua's proposal. System performance may be impacted by factors outside of Evoqua's control. These factors may include but are not limited to site conditions including variation in flows and loadings, operator inputs, temperature, pH, toxic or inhibitory substances, and failure or limitations of other unit processes.

13. ADDITIONAL FIELD SERVICES

Should the Purchaser feel that additional services will be required, they can be purchased from Evoqua. Additional services may be purchased at the per diem rate stated below.

Evoqua's price does not include service of a factory field service technician during the time of installation of the equipment items.

In the event Purchaser wishes to videotape the Evoqua field service personnel during start-up and/or field service, Purchaser must execute Evoqua's standard "Videotape Agreement" in which the Purchaser shall expressly waive any claim against Evoqua, for injury or damage caused by inaccuracies or errors in such videotape(s), and acknowledge that such videotaping is done by Purchaser at its sole risk.

Quotation No.: 557053-A2

TERMS GOVERNING FIELD SERVICES: Services of a factory field service technician to inspect installation and/or first operation of the products specified in the quotation can be furnished by Evoqua at the following rates:

A. Supervision or consultation of a process service technician within the continental limits of the United States: $1,400 per eight (8) hour day, Monday through Friday inclusive.

B. Supervision or inspection of a field service technician within the continental limits of the United States: $1,200 per eight (8) hour day, Monday through Friday inclusive. Overtime Monday through Friday and Saturday work is charged at time and one-half. Time worked on Sunday will be charged double time; time worked on U.S. Holidays will be charged triple time.

C. Traveling, living and incidental expenses at cost, including shipping charges on tools and other equipment which the factory field service technician has shipped to the construction site.

D. Travel time will be charged to and from Purchaser's construction site, and weekend or holiday travel request or required by Purchaser will be charged at the overtime rates.

E. Rescheduling or cancellation of a field service trip once booked will incur the greater of either a $1,500 cancellation or re-scheduling charge, or actual costs.

Rates shown above apply only to additional services performed within twelve (12) months from the date of Quotation. Additional services performed after twelve (12) months from the date of Quotation shall be subject to Evoqua's current rates at the time such service is provided. Except for the direct acts or omissions of the factory field service technician, the responsibility for the installation and/or first operation shall be Purchaser's. Evoqua will assume responsibility for workmen's compensation coverage of Evoqua employees only and will provide umbrella liability coverage during installation. All other insurance coverage and necessary materials to accomplish installation shall be provided by Purchaser.

EVOQUA WATER TECHNOLOGIES LLC

STANDARD TERMS OF SALE

1. Applicable Terms. These terms govern the purchase and sale of equipment, products, related services, leased products, and media goods if any (collectively herein "Work"), referred to in Seller's proposal ("Seller's Documentation"). Whether these terms are included in an offer or an acceptance by Seller, such offer or acceptance is expressly conditioned on Buyer's assent to these terms. Seller rejects all additional or different terms in any of Buyer's forms or documents.

2. **Payment.** Buyer shall pay Seller the full purchase price as set forth in Seller's Documentation. Unless Seller's Documentation specifically provides otherwise, freight, storage, insurance and all taxes, levies, duties, tariffs, permits or license fees or other governmental charges relating to the Work or any incremental increases thereto shall be paid by Buyer. If Seller is required to pay any such charges, Buyer shall immediately reimburse Seller. If Buyer claims a tax or other exemption or direct payment permit, it shall provide Seller with a valid exemption certificate or permit and indemnify, defend and hold Seller harmless from any taxes, costs and penalties arising out of same. All payments are due within 30 days after receipt of invoice. Buyer shall be charged the lower of 1 ½% interest per month or the maximum legal rate on all amounts not received by the due date and shall pay all of Seller's reasonable costs (including attorneys' fees) of collecting amounts due but unpaid. All orders are subject to credit approval by Seller. Back charges without Seller's prior written approval shall not be accepted.

3. **Delivery.** Delivery of the Work shall be in material compliance with the schedule in Seller's Documentation. Unless Seller's Documentation provides otherwise, delivery terms are Ex Works Seller's factory (Incoterms 2010). Title to all Work shall pass upon receipt of payment for the Work under the respective invoice. Unless otherwise agreed to in writing by Seller, shipping dates are approximate only and Seller shall not be liable for any loss or expense (consequential or otherwise) incurred by Buyer or Buyer's customer if Seller fails to meet the specified delivery schedule.

4. **Ownership of Materials and Licenses.** All devices, designs (including drawings, plans and specifications), estimates, prices, notes, electronic data, software and other documents or information prepared or disclosed by Seller, and all related intellectual property rights, shall remain Seller's property. Seller grants Buyer a non-exclusive, non-transferable license to use any such material solely for Buyer's use of the Work. Buyer shall not disclose any such material to third parties without Seller's prior written consent. Buyer grants Seller a non-exclusive, non-transferable license to use Buyer's name and logo for marketing purposes, including but not limited to, press releases, marketing and promotional materials, and web site content.

5. **Changes.** Neither party shall implement any changes in the scope of Work described in Seller's Documentation without a mutually agreed upon change order. Any change to the scope of the Work, delivery schedule for the Work, any Force Majeure Event, any law, rule, regulation, order, code, standard or requirement which requires any change hereunder shall entitle Seller to an equitable adjustment in the price and time of performance.

6. **Force Majeure Event.** Neither Buyer nor Seller shall have any liability for any breach or delay (except for breach of payment obligations) caused by a Force Majeure Event. If a Force Majeure Event exceeds six (6) months in duration, the Seller shall have the right to terminate the Agreement without liability, upon fifteen (15) days written notice to Buyer, and shall be entitled to payment for work performed prior to the date of termination. "Force Majeure Event" shall mean events or circumstances that are beyond the affected party's control and could not reasonably have been easily avoided or overcome by the affected party and are not substantially attributable to the other party. Force Majeure Event may include, but is not limited to, the following circumstances or events: war, act of foreign enemies, terrorism, riot, strike, or lockout by persons other than by Seller or its sub-suppliers, natural catastrophes or (with respect to on-site work), unusual weather conditions.

7. **Warranty.** Subject to the following sentence, Seller warrants to Buyer that the (i) Work shall materially conform to the description in Seller's Documentation and shall be free from defects in material and workmanship and (ii) the Services shall be performed in a timely and workmanlike manner. Determination of suitability of treated water for any use by Buyer shall be the sole and exclusive responsibility of Buyer. The foregoing warranty shall not apply to any Work that is specified or otherwise demanded by Buyer and is not manufactured or selected by Seller, as to which (i) Seller hereby assigns to Buyer, to the extent assignable, any warranties made to Seller and (ii) Seller shall have no other liability to Buyer under warranty, tort or any other legal theory. The Seller warrants the Work, or any components

thereof, through the earlier of (i) eighteen (18) months from delivery of the Work or (ii) twelve (12) months from initial operation of the Work or ninety (90) days from the performance of services (the "Warranty Period"). If Buyer gives Seller prompt written notice of breach of this warranty within the Warranty Period, Seller shall, at its sole option and as Buyer's sole and exclusive remedy, repair or replace the subject parts, re-perform the Service or refund the purchase price. Unless otherwise agreed to in writing by Seller, (i) Buyer shall be responsible for any labor required to gain access to the Work so that Seller can assess the available remedies and (ii) Buyer shall be responsible for all costs of installation of repaired or replaced Work. If Seller determines that any claimed breach is not, in fact, covered by this warranty, Buyer shall pay Seller its then customary charges for any repair or replacement made by Seller. Seller's warranty is conditioned on Buyer's (a) operating and maintaining the Work in accordance with Seller's instructions, (b) not making any unauthorized repairs or alterations, and (c) not being in default of any payment obligation to Seller. Seller's warranty does not cover (i) damage caused by chemical action or abrasive material, misuse or improper installation (unless installed by Seller) and (ii) media goods (such as, but not limited to, resin, membranes, or activated carbon media) once media goods are installed. THE WARRANTIES SET FORTH IN THIS SECTION 7 ARE THE SELLER'S SOLE AND EXCLUSIVE WARRANTIES AND ARE SUBJECT TO THE LIMITATION OF LIABILITY PROVISION BELOW. SELLER MAKES NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR PURPOSE.

8. **Indemnity.** Seller shall indemnify, defend and hold Buyer harmless from any claim, cause of action or liability incurred by Buyer as a result of third party claims for personal injury, death or damage to tangible property, to the extent caused by Seller's negligence. Seller shall have the sole authority to direct the defense of and settle any indemnified claim. Seller's indemnification is conditioned on Buyer (a) promptly, within the Warranty Period, notifying Seller of any claim, and (b) providing reasonable cooperation in the defense of any claim.

9. **Assignment.** Neither party may assign this Agreement, in whole or in part, nor any rights or obligations hereunder without the prior written consent of the other party; provided, however, the Seller may assign its rights and obligations under these terms to its affiliates or in connection with the sale or transfer of the Seller's business and Seller may grant a security interest in the Agreement and/or assign proceeds of the agreement without Buyer's consent.

10. **Termination.** Either party may terminate this agreement, upon issuance of a written notice of breach and a thirty (30) day cure period, for a material breach (including but not limited to, filing of bankruptcy, or failure to fulfill the material obligations of this agreement). If Buyer suspends an order without a change order for ninety (90) or more days, Seller may thereafter terminate this Agreement without liability, upon fifteen (15) days written notice to Buyer, and shall be entitled to payment for work performed, whether delivered or undelivered, prior to the date of termination.

11. **Dispute Resolution.** Seller and Buyer shall negotiate in good faith to resolve any dispute relating hereto. If, despite good faith efforts, the parties are unable to resolve a dispute or claim arising out of or relating to this Agreement or its breach, termination, enforcement, interpretation or validity, the parties will first seek to agree on a forum for mediation to be held in a mutually agreeable site. If the parties are unable to resolve the dispute through mediation, then **any dispute, claim or controversy arising out of or relating to this Agreement or the breach, termination, enforcement, interpretation or validity thereof, including the determination of the scope or applicability of this agreement to arbitrate, shall be determined by arbitration in Pittsburgh, Pennsylvania before three arbitrators** who are lawyers experienced in the discipline that is the subject of the dispute and shall be jointly selected by Seller and Buyer. **The arbitration shall be administered by JAMS pursuant to its Comprehensive Arbitration Rules and Procedures. The Arbitrators shall issue a reasoned decision** of a majority of the arbitrators, which shall be the decision of the panel. Judgment may be entered upon the arbitrators' decision in any court of competent jurisdiction. The substantially prevailing party as determined by the arbitrators shall be reimbursed by the other party for all costs, expenses and charges, including without limitation reasonable attorneys' fees, incurred by the prevailing party in connection with the arbitration. For any order shipped outside of the United States, any dispute shall be referred to and finally determined by the International Center for Dispute Resolution in accordance with the provisions of its International Arbitration Rules, enforceable under the New York Convention (Convention on the Recognition and Enforcement of Foreign Arbitral Awards) and the governing language shall be English.

12. **Export Compliance**. Buyer acknowledges that Seller is required to comply with applicable export laws and regulations relating to the sale, exportation, transfer, assignment, disposal and usage of the Work provided under this Agreement, including any export license requirements. Buyer agrees that such Work shall not at any time directly or indirectly be used, exported, sold, transferred, assigned or otherwise disposed of in a manner which will result in non-compliance with such applicable export laws and regulations. It shall be a condition of the continuing performance by Seller of its obligations hereunder that compliance with such export laws and regulations be

maintained at all times. BUYER AGREES TO INDEMNIFY AND HOLD SELLER HARMLESS FROM ANY AND ALL COSTS, LIABILITIES, PENALTIES, SANCTIONS AND FINES RELATED TO NON-COMPLIANCE WITH APPLICABLE EXPORT LAWS AND REGULATIONS.

13. **LIMITATION OF LIABILITY.** NOTWITHSTANDING ANYTHING ELSE TO THE CONTRARY, SELLER SHALL NOT BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, SPECIAL, PUNITIVE OR OTHER INDIRECT DAMAGES, AND SELLER'S TOTAL LIABILITY ARISING AT ANY TIME FROM THE SALE OR USE OF THE WORK, INCLUDING WITHOUT LIMITATION ANY LIABILITY FOR ALL WARRANTY CLAIMS OR FOR ANY BREACH OR FAILURE TO PERFORM ANY OBLIGATION UNDER THE CONTRACT, SHALL NOT EXCEED THE PURCHASE PRICE PAID FOR THE WORK. THESE LIMITATIONS APPLY WHETHER THE LIABILITY IS BASED ON CONTRACT, TORT, STRICT LIABILITY OR ANY OTHER THEORY.

14. **Rental Equipment / Services.** Any leased or rented equipment ("Leased Equipment") provided by Seller shall at all times be the property of Seller with the exception of certain miscellaneous installation materials purchased by the Buyer, and no right or property interest is transferred to the Buyer, except the right to use any such Leased Equipment as provided herein. Buyer agrees that it shall not pledge, lend, or create a security interest in, part with possession of, or relocate the Leased Equipment. Buyer shall be responsible to maintain the Leased Equipment in good and efficient working order. At the end of the initial term specified in the order, the terms shall automatically renew for the identical period unless canceled in writing by Buyer or Seller not sooner than three (3) months nor later than one (1) month from termination of the initial order or any renewal terms. Upon any renewal, Seller shall have the right to issue notice of increased pricing which shall be effective for any renewed terms unless Buyer objects in writing within fifteen (15) days of issuance of said notice. If Buyer timely cancels service in writing prior to the end of the initial or any renewal term this shall not relieve Buyer of its obligations under the order for the monthly rental service charge which shall continue to be due and owing. Upon the expiration or termination of this Agreement, Buyer shall promptly make any Leased Equipment available to Seller for removal. Buyer hereby agrees that it shall grant Seller access to the Leased Equipment location and shall permit Seller to take possession of and remove the Leased Equipment without resort to legal process and hereby releases Seller from any claim or right of action for trespass or damages caused by reason of such entry and removal.

15. **Miscellaneous.** These terms, together with any Contract Documents issued or signed by the Seller, comprise the complete and exclusive statement of the agreement between the parties (the "Agreement") and supersede any terms contained in Buyer's documents, unless separately signed by Seller. No part of the Agreement may be changed or cancelled except by a written document signed by Seller and Buyer. No course of dealing or performance, usage of trade or failure to enforce any term shall be used to modify the Agreement. To the extent the Agreement is considered a subcontract under Buyer's prime contract with an agency of the United States government, in case of Federal Acquisition Regulations (FARs) flow down terms, Seller will be in compliance with Section 44.403 of the FAR relating to commercial items and those additional clauses as specifically listed in 52.244-6, Subcontracts for Commercial Items (OCT 2014). If any of these terms is unenforceable, such term shall be limited only to the extent necessary to make it enforceable, and all other terms shall remain in full force and effect. The Agreement shall be governed by the laws of the Commonwealth of Pennsylvania without regard to its conflict of laws provisions. Both Buyer and Seller reject the applicability of the United Nations Convention on Contracts for the international sales of goods to the relationship between the parties and to all transactions arising from said relationship.

GENERAL TERMS AND CONDITIONS

FOR FIELD ERECTION WORK

1. Equipment location and staking, including plant orientation, influent and effluent location, is the responsibility of the Purchaser and/or his engineer.

2. The elevation of equipment above or below grade must be determined by the Purchaser and/or his engineer and entered upon the approved drawings. Purchaser is responsible for establishing benchmark at site for Evoqua's erection crew.

3. Purchaser agrees to provide a clear level work area at least 35 feet wide around the periphery of the erection site. Prior to starting erection, any obstructions in the work area, such as excavations, overhead lines, fences, trees, shrubbery, etc., shall be removed by and at the expense of the Purchaser. The Purchaser shall keep the site properly drained and free from surface water during erection, and until the work has been completed and accepted. The site and site access shall be capable of supporting a crane up to and including 50-ton capacity and other erection equipment. Any fill or dewatering necessary to accomplish the above, or additional costs of oversized or special equipment required due to poor site conditions, will be the responsibility of the Purchaser. Site leveling, grading, etc., after erections, shall be the responsibility of the Purchaser. Evoqua shall be responsible for the clean up and removal of trash, scrap materials, etc., left from Evoqua's erection work.

4. Purchaser agrees to provide site access and site working area capable of supporting the delivery trucks (70-75,000 pounds gross weight). Purchaser agrees to maintain site access and working area, daily if required, to allow Evoqua's erection crew to perform work during all weather conditions. Should Evoqua have to stop work and return to the site when access and/or work area permits or experience delays due to the site and site access being unsuitable for work due to Purchaser's failure to prepare and/or maintain the above, the Purchaser agrees to compensate Evoqua for cost incurred and agrees Evoqua shall be indemnified and held harmless from all loss or damages resulting from delays of job progress, that are directly or indirectly a result of the Purchaser's responsibility.

5. Evoqua's erection personnel are non-union, and all work will be by non-union personnel. In case of interference in erection work due to labor problems by persons not employed by Evoqua, or the imposition of requirements concerning labor, working conditions, wage rates, etc., which were not clearly defined prior to Evoqua acceptance of the erection job, Evoqua shall have the right to stop work without prejudice until such interference or condition is satisfactorily removed or resolved. If additional costs are incurred by Evoqua due to such conflict the Purchaser hereby agrees to reimburse Evoqua for the additional costs incurred.

   Evoqua is an Equal Opportunity Employer and shall comply with government regulations pertaining to fair and equal employment.

Work hours by Evoqua at the site shall be as determined by Evoqua. The purchaser shall not define working hours, number of work days per week or prohibit Evoqua from working evenings, weekends, holidays, etc., when deemed to be advisable by Evoqua.

6. INSURANCE

During the period of erection of the equipment contemplated herein, Evoqua will maintain the following insurance:

(a) Workmen's Compensation and Employer's Liability.

(b) Occupational Disease.

(c) Contractual Liability.

(d) Public Liability Insurance, Personal Injury and Property Damage.

(e) Automobile Liability, Personal Injury and Property Damage.

Any insurance required by Purchaser in addition to the above-mentioned coverage shall not be considered to be included in the purchase price as set forth herein and shall be charged to the Purchaser.

7. UNLOADING OF EQUIPMENT

Evoqua is responsible for unloading of equipment which is to be erected by Evoqua. Purchaser is responsible for unloading any equipment or accessories shipped to Purchaser for his installation. (Such as base channels to be embedded in concrete foundation by Purchaser, blowers or other accessories to be installed by Purchaser).

8. PURCHASER ACCEPTANCE OF ERECTED EQUIPMENT

When erection of the equipment nears completion, Evoqua shall give Purchaser seventy-two hours verbal notice that the equipment shall be ready for inspection and acceptance. Purchaser agrees to provide, on seventy-two hours notice, an authorized agent to meet at the site with Evoqua's erection personnel, to inspect the erected equipment, and accept same for/or on behalf of the Purchaser. Any backordered items not installed at that time shall be listed on the acceptance agreement with written understanding that Evoqua is responsible for installing the subject equipment. Backordered items shall be received by the Purchaser at the "Backordered Address" previously provided-and stored until Evoqua's installation is scheduled.

9. PREPARATION FOR START-UP OF ERECTED EQUIPMENT

Upon completion of erection, Evoqua shall inform the Purchaser that the erected equipment is ready to be placed in service. The Purchaser shall make all preparations for which he is responsible, such as: Influent and effluent connections, installation of the required electrical power supply

and circuitry, filling tanks with clean water for testing and start-up, etc. If any deficiencies in materials or workmanship by Evoqua are discovered by the Purchaser while performing this work, the Purchaser shall immediately notify Evoqua so that corrective action can be taken.

Evoqua is responsible for providing start-up supervision as defined in the equipment proposal. For scheduling purposes, ten days notice of desired start-up date is required.

10. SECURITY AND PROTECTION OF EQUIPMENT

Purchaser is responsible for security of equipment stored on his site after delivery prior to arrival of Evoqua crews to begin erection; and for any backordered material delivered to Purchaser after departure of Evoqua's erection crews. Evoqua shall not be responsible for deterioration, theft, vandalism or damage to equipment which is stored on site or left inoperative after installation due to delays in start-up. Purchaser agrees to be responsible for security and protection of such equipment.

11. BACKCHARGES

Evoqua will accept no backcharges for any reason, which have not been approved prior to any work being performed in writing by an authorized manager of the company. Purchaser agrees to contact Evoqua and receive written authorization prior to incurring any costs related to backcharges.

12. LICENSES AND PERMITS

Unless specifically stated in Evoqua's erection proposal, Evoqua is not responsible for licenses, permits or fees required to perform the work defined in this proposal.

13. (a) Evoqua shall not be liable for delays due to: (1) causes beyond its reasonable control or (2) acts of God, acts of customer, prerequisite work by others, acts of civil or military authority, government priorities, fires, strikes or other labor disturbances, floods, epidemics, war riot, delays in transportation or (3) Inability to obtain or delay in obtaining, due to causes beyond its reasonable control, suitable labor, materials, or facilities.

In the event of any such delay; the time of performance shall be extended for a period equal to the time lost by reason of the delay.

(b) In the event Evoqua is delayed by acts of the customer or by prerequisite work by other contractors or suppliers of the customer, Evoqua shall be entitled to an equitable price adjustment in addition to extension of the time of performance.

14. Evoqua reserves the right to subcontract any of the work to one or more subcontractors.

15. Purchaser shall protect all gauges, controls and factory finishes from the painting operation. Purchaser shall be responsible for the removal and reinstallation of any assembly that affects the painting operation.

GENERAL TERMS AND CONDITIONS

FOR FIELD PAINTING WORK

1. Purchaser agrees to provide a clear level work area at least 35 feet wide around the periphery of the site. Prior to starting field painting, any obstructions in the work area, such as excavations, overhead lines, fences, trees, shrubbery, etc., shall be removed by and at the expense of the Purchaser. The Purchaser shall keep the site properly drained and free from surface water during field painting, and until the work has been completed and accepted. Evoqua shall be responsible for the clean up and removal of trash, scrap materials, etc., left from Evoqua's field painting work.

2. Purchaser agrees to provide site access and site working area capable of supporting the delivery trucks (70-75,000 pounds gross weight). Purchaser agrees to maintain site access and working area, daily if required, to allow Evoqua's field painting crew to perform work during all weather conditions. (a) Workmen's Compensation and Employer's Liability.

(b) Occupational Disease.

(c) Contractual Liability.

(d) Public Liability Insurance, Personal Injury and Property Damage.

(e) Automobile Liability, Personal Injury and Property Damage.

Any insurance required by Purchaser in addition to the above-mentioned coverage shall not be considered to be included in the purchase price as set forth herein and shall be charged to the Purchaser.

5. UNLOADING OF EQUIPMENT

Evoqua is responsible for unloading of equipment which is to be used during field painting by Evoqua.

6. PURCHASER ACCEPTANCE OF FIELD PAINTING EQUIPMENT

When field painting of the equipment nears completion Evoqua shall give Purchaser seventy-two hours verbal notice that the equipment shall be ready for inspection and acceptance. Purchaser agrees to provide, on seventy-two hours notice, an authorized agent to meet at the site with Evoqua's field painting personnel, to inspect the painted equipment, and accept same for/or on behalf of the Purchaser.

Certification of Single Source or Emergency Procurement

Please use this form to certify a Single Source or Emergency Procurement complies with the requirements of the JEA Procurement Code. The JEA Procurement Code defines a Single Source and Emergency Procurement as follows:

3-112 Single Source

A Contract may be awarded for Supplies or Services as a Single Source when, pursuant to the Operational Procedures, the Chief Procurement Officer determines that:

(a) there is only one justifiable source for the required Supplies or Services;

(b) the Supplies or Services must be a certain type, brand, make or manufacturer due to the criticality of the item or compatibility within a JEA utility system, and such Supplies or Services may not be obtained from multiple sources such as distributors;

(c) the Services are a follow-up of Services that may only be done efficiently and effectively by the Vendor that rendered the initial Services to JEA, provided the Procurement of the initial Services was competitive;

(d) at the conclusion of a Pilot Project under Section 3-118 of this Code, the Procurement of Supplies or Services tested during the Pilot Project, provided the Vendor was competitively selected for the Pilot Project.

3-113 Emergency Procurements

In the event of an Emergency, the Chief Procurement Officer may make or authorize an Emergency Procurement, provided that Emergency Procurements shall be made with as much competition as practicable under the circumstances. A written Determination of the basis for the Emergency and for the selection of the particular Vendor shall be included in the Procurement file.

For purposes of this Section 3-113, an "Emergency" means any one of the following:

(a) a reasonably unforeseen breakdown in machinery;

(b) an interruption in the delivery of an essential governmental service or the development of a circumstance causing a threatened curtailment, diminution, or termination of an essential service;

(c) the development of a dangerous condition causing an immediate danger to the public health, safety, or welfare or other substantial loss to JEA;

(d) an immediate danger of loss of public or private property;

(e) the opportunity to secure significant financial gain, to avoid delays to any Governmental Entity or avoid significant financial loss through immediate or timely action; or (f) a valid public emergency certified by the Chief Executive Officer.

Please provide the following information:

1. Vendor Name:

Evoqua/DAVCO

2. Description of Services or Supplies provided by Vendor:

Flows at Blacks Ford WRF are reaching capacity. Additional capacity is needed. The package plant at Blacks Ford WRF must be rehabilitated and placed into service. The rehabilitation of the package plant will be completed as an OEM through Evoqua/DAVCO. The DAVCO package plant was used for additional capacity prior to the completion of the last expansion of Blacks Ford WRF. In order to utilize existing assest, the package plant must be rehabilitated by the original vendor.

Appendix B - Response Workbook for IFB 1411386246 Hand and Power Tools for Inventory Stock

Total Three(3) Year Proposed Bid Price

Vendor Name: **Certified Slings & Supply**

Instructions: Only the approved manufacturers and part numbers specified in Column C will be accepted and no substitute products will be allowed. You must quote one of the options in Column C and indicate the item you are bidding by using the drop down box contained in each Cell within Column D. The lead-time listed in Column I must be the number of calendar days after receipt of order that JEA will receive the material, not the number of days to ship. This should be as number of days, do not quote a range. Any blanks left on the workbook will be considered to be a "no bid." Your quoted unit price must be listed in Column G. You must take the final amount located in cell H2 and transfer that total Three (3) year price to the Appendix B - Response Form.
