 - This fee will appear on your JEA billing statement
 - *JEA fees as of 5/15/18. These fees are subject to change with Board approval
- **Water tap fees are being paid for by the City of Jacksonville for the Riverview Projects

BACKFLOW PREVENTION DEVICE REQUIREMENTS

All residential services with alternative water sources (wells or irrigation systems) require a backflow prevention device installed on the potable service. Failure to comply may result in disconnection of service.

By signing this form, you are giving JEA access to test and maintain the backflow device(s) on your premises. The JEA customer will be responsible for the device installation and replacement if needed.
